Markus is a model specialized in nude portraits and content aimed at a mature audience. His work encompasses various forms of art, including photography and videos. Born in the vibrant city of Barcelona, Spain, his appreciation for art and culture has been deeply influenced by his surroundings. Throughout his career, he has had the privilege of collaborating with over a hundred talented photographers, posing for portraits that capture the essence of human expression. His goal is always to bring a unique and authentic perspective to every project he participates in.

URBEX

Light **Graffiti,** **Light** **Painting**

For photographers and videographers, light is the central element. Without light, there is nothing—no pictures, no videos, just black!

Light opens up unimagined possibilities: image modulation, alienation, and much more. The design possibilities with light are almost unlimited.

Light and transience? And that in an environment that was consecrated in the past? Light graffiti? Yes! It has many advantages over the normal graffiti we know, because it only lasts a moment and is free of any lasting damage.
